HISTORY

Cought between
railway-romantic
and modern

Built in 1903 and used until 1940 – the Alte Lokhalle is so much more than a piece of lived industry culture.

BACK THEN ...

Established in 1903, the Alte Lokhalle was originally made to maintain the railway locomotives. Since then it was very characteristic for its circular shape and the red paneling made of sandstones. In the 40ies the hall was shut down and was used a storage hall.

... TODAY

An expensive modification finally got the historical building a new and modern personality. Nowadays the -meanwhile protected as a monument – Alte Lokhalle is used with its 2.000m² as an event location for every kind of event.
