Coreum. A World of Possibilities.

What is the Coreum?

The Coreum is where the construction, material handling and recycling industries converge – and where you belong, too. Experience cutting-edge technology, host events, recharge your batteries and spend the night where the excavators slumber. The Coreum serves as a platform, showroom and event location for anyone captivated by heavy machinery. Perhaps it's even more than that, but certainly never less.

Coreum Exhibition

The showroom with over 50 brand partners. Discover, experience, try. Explore an entire world of innovations on 80,000 square metres of space.

Coreum Academy

The training centre. For working professionals who never stop improving. Learn new technologies and expand your skill set.

Coreum Events

The industry's event series. See, try and network at our Practical Days or at Bits and Machines. Inspiration you can experience.

Coreum Catering

From breakfast to a three-course lunch menu, catering in the evening and snacks at the bar. Freshly prepared daily with regional ingredients.

Coreum Hotel

The hotel. For our Coreum guests, neighbours and business travellers. Located a stone's throw from the beating heart of the construction, material handling and recycling industries.

Coreum Event Location

The venue. For 2 to 850 people. For your own large and small events, product presentations and conferences.

Team building

Experience unforgettable team-building events at the Coreum! Our seasoned Academy team is here to craft bespoke programmes tailored to your team's needs. From short games to intensive challenges, we promote team spirit, leadership and communication. Our trainers provide personalised support, regardless of group size. Invest in your team, strengthen its cohesion and enjoy memorable moments in a unique setting.

Comms Card Game:

Curious about your communication skills? In our Communication Card Game, participants sit in a circle, blindfolded. The trainer removes two out of thirty cards before distributing the rest to the players. Your task: work out the colour and shape of the two missing cards through verbal communication. The trainer will announce the colour of each card that is held up. This game can be adapted to suit the group size and preferred challenge level, enhancing both verbal communication and teamwork – the ideal way to get you functioning better as a unit!

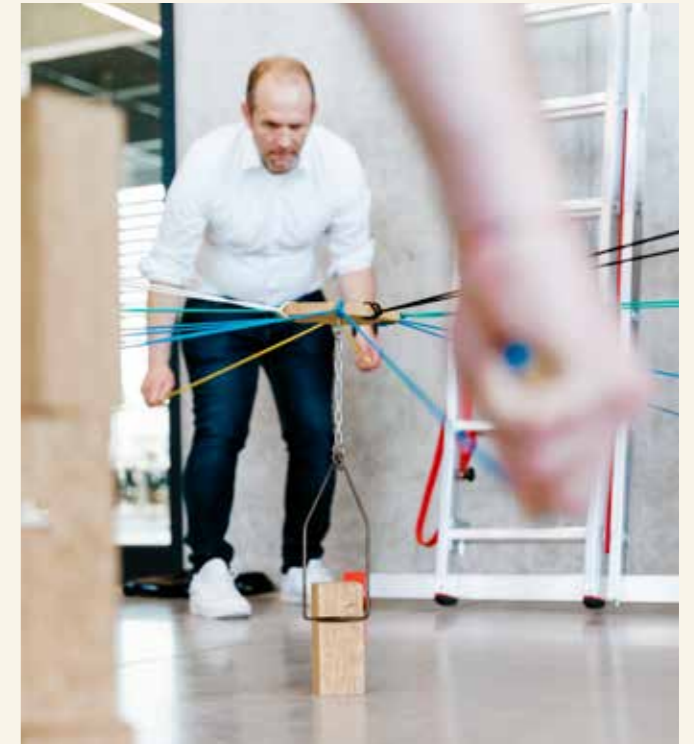

Leonardo Bridge:

Picture this: you and your team, constructing a stable bridge from nothing but wooden sticks – no nails, no ropes! That's precisely the challenge that awaits you here. Collaborate, experiment and laugh together as you build the bridge. The goal? To boost your team spirit and sharpen your communication skills while having lots of fun. By the end of the challenge, you will have not only constructed an impressive bridge but also elevated your team's performance to new heights.

Rope Shapes:

Seeking a challenge that will strengthen the bonds within your team? In our "Rope Shapes" team-building activity, blindfolded participants must form various shapes using a long rope. Whether it's a circle, square or star, you will only achieve your goal through communication and teamwork! This exercise not only strengthens cohesion but also fosters

creativity and trust within the team. By the end, you will have mastered challenging tasks and emerged as a more unified and coordinated team.

Bermuda Triangle:

Looking for an adventure that will test your team's communication skills and mutual trust? Then look no further than the Bermuda Triangle Challenge! Your team will be divided into three groups: silent strategists, seeing communicators and blind executors. Team A devises a plan in silence, Team B relays the instructions and Team C carries them out while blindfolded. The action begins when Team A receives a covert task and signals it, nonverbally, to Team B, who in turn guide Team C to blindly execute the task. This challenge blends fun, excitement and teamwork, revealing the depth of your team members' communication skills and mutual trust. Ready for an unforgettable team-building experience?

Supporting programmes

Acid River:

Want to put your team's creativity and collaboration skills to the test? Welcome to the Acid River! Your team must cross a wide river of corrosive acid without touching it. No bridges here! Your collective salvation lies in "acid-proof stones" and stepping aids like wooden planks. Your mission: cross the acid river by skilfully using these aids. With only a few stones available, effective teamwork is essential. Whether it's piggybacking, balancing acts or creative solutions, anything goes – as long as no one touches the ground. This activity enhances both teamwork and problem-solving skills, adding plenty of fun and excitement. By the end, your team will be more tightly knit and overflowing with fresh ideas.

Team Rally:

Ready for an exciting scavenger hunt across the impressive grounds of the Coreum? For our Team Rally, you will be split into groups and required to overcome various challenges and find clues to reach your destination. As you explore the Coreum, you will get to know the site – and your teammates – better. This event promotes collaboration, creativity and problem-solving skills – guaranteeing lots of fun, thrilling moments and a renewed sense of unity.

Piranha Lake:

Looking for a team-building experience that will challenge your team members' dexterity and ability to cooperate? At Piranha Lake, your task is to retrieve a treasure chest from a six-metre-wide lake without touching the water, which is teeming with hungry piranhas! Using ropes, climbing harnesses and carabiners, your goal is to safely bring the chest ashore. This challenge demands skill, creativity and teamwork, offering plenty of fun and excitement while fostering team spirit.

Bull Ring:

Will you accept the challenge and put your teamwork and dexterity to the test? During our Bull Ring Challenge, you will work together to manoeuvre a small ball through an obsta-

cle course on a ring-shaped frame controlled only by ropes. Communication and coordination are the key to success! As your team members laugh, experiment and cheer each other on, their camaraderie and collaborative skills will be significantly strengthened. By the end of this task, you will have not only demonstrated your collective precision but also elevated your teamwork to a new level.

Magic Wand:

In our "Magic Wand" team-building activity, the goal is to collectively lower a lightweight stick to the ground – sounds simple, right? The twist: everyone must touch the stick using only their fingertips and lower it simultaneously. Precise communication and perfect coordination are required! This exercise will strengthen your team's cohesion and ability to act in sync. By the end, you will not only have successfully lowered the magic wand but also fostered a magical team dynamic that will strengthen your bonds even further.

Team building (external)

Inspiration Chain

Using various materials and different equipment, you will create individual stations that will ultimately form an entire chain. This exercise demands lots of creativity, communication, skill and patience. The aim is to allow everyone to walk along the entire chain once.

Dinner game show

Enhance your team's communication skills over dinner – while having plenty of fun. With our dinner game show, you can do just that! The host and their assistant will guide the participants through various activities, quiz rounds and team-based tasks. We will coordinate the topics with you in advance.

A great way to end a great day!
