Rental information

Event location in HafenCity with a view of the Elbe

Hamburg Cruise Center Baakenhöft

Celebrate and hold meetings with a direct view of the Elbe and the port – this is what Cruise Center Baakenhöft offers. Centrally located in the heart of HafenCity, currently Europe's biggest inner-city urban development project, the terminal building's approx. 800 sqm reception hall lends itself to a wide variety of events such as conferences, corporate functions, trade fairs, galas and cultural events (capacity up to 700 people).

Here, right by the Elbe and in the heart of Hamburg, many of the world's leading cruise ships tie up every year. When

not in use for cruise ship operations, the pillar-free reception hall offers an unusual setting for special events and celebrations. The port and the Elbe can be experienced both through the large waterside panoramic windows and from the spacious outside areas on the quayside.

Its central setting means that Hamburg Cruise Center Baakenhöft is a maritime focal point, one that can be easily reached in a few minutes from the city center and the main station. There is a direct subway link via the U4 line (HafenCity Universität station).

Ample parking directly at the building mean it is easily reached by car.

Events can be arranged very flexibly and individually, since neither the technology nor the catering is tied to a service provider.
